FULL-STACK WEB-DEVELOPE

I am a ambitious new web-developer with proven ability of a strong ethics and passion for web design, is excited to use talent and grow skills through hard work and motivational aspiration in new dynamic and progressive company.

## PROJECTS

### Hostel Life – PERN STACK with CRUD operations

Responsive website, where travelers who live in hostels (only partnered) can use and participate in different daily activities and also can meet other people with similar interests. Can use QR code or email to login, Google-Map for directions, and Chat-Room to chat with other travelers.

### Punk Beer API – React.js

Responsive website, working with **API**, using different features like pagination, local storage to save the data, can click on favorite button and list in favorite.

### Redux Calculator – Redux.js

Calculator using react-redux library.

### To Do List – React.js

Different activities can be added, we can mark activities as done and also we can delete whenever we want. We can filter activities with the filter options of All, Completed and Uncompleted.
